

Signature
SPAS®
Everyone should have their own Signature®

Experience **EXCEPTIONAL CREATION**

What makes Signature Spas Superior...

✔ **AUSTRALIA'S MOST ENERGY EFFICIENT SPAS**

Why let the cost of energy deter you from enjoying your spa experience. All Signature Spas are fitted with equipment using the latest in energy saving technology, designed to enhance your spa experience and reduce running costs.

✔ **SPARKLING CLEAN WATER**

Signature Spas use advanced water treatment technology to ensure that your spas health is maintained with ease. Our Advanced Plasma Gap Ozone System keeps your water sparkling clean which helps minimise the use of chemicals required.

✔ **ENHANCED SPA EXPERIENCE**

Signature Spas are designed with relaxation in mind, and offer technologically advanced features and options to enhance your total spa experience. Hydrotherapy, Sound Systems, Smart Device Wi-Fi connectivity, Lighting, Aromatherapy, Intuitive Touch Screens and Touch Pads.

✔ **BUILT FOR THE AUSTRALIAN CLIMATE**

All Signature Spas are manufactured here in Australia to withstand the harsh Australian climate, using only quality components from the US, Canada, New Zealand and Australia. All spas come with a 25 year structural warranty and are backed by the Australian Manufacturer.

✔ **EASY CARE MAINTENANCE**

We have made caring for your spa easy, so that you can spend more time enjoying the experience. With just 5 minutes a week - 30 minutes a month, there is more time to sit back and relax in your Signature Spa.

The Ultimate **SPA EXPERIENCE**

Step into a Signature Spa and you'll feel relaxed right away in its gently rounded contours and smooth, flowing curves. In the welcoming warmth of your own Signature Spa, you'll relax completely and experience sensations that no other spa can give you.

Designed to deliver the ultimate in Hydrotherapy, The Signature Deep Hydrotherapy Seats puts you in the lap of luxury. Specially contoured to support the spine, it features armrests and jets positioned to massage the muscles of the back and lumbar region.

All Signature Spas jets are located in optimum positions to target acupressure points, and quickly soothe tired muscles and aching joints. The adjustable flow jets allow you to create the perfect Hydrotherapy massage to suit all family members. Each model's unique contours are the result of meticulous research into the human body, so your Signature Spa gives you unrivalled comfort with supreme functionality.

A Day Spa in your own backyard, that will leave you feeling relaxed and recharged.

Australia's Most **ENERGY EFFICIENT SPAS**

Signature Spas are designed and built with energy efficiency in mind, so you can relax and enjoy the spa experience.

All components used in Signature Spas are chosen for their energy efficient properties. From the insulated Spa Shell to the 7 Star Rated Eco Filtration System, we have it covered.

By carefully selecting from our range of star rated energy efficient components you can decide how energy efficient your spa will be!

Sparkling **CLEAN WATER**

Premium Water Management System

We want you to spend more time relaxing and less time worrying about your spa maintenance. Therefore, we have combined our Eco Filtration, Advanced Plasma Gap Ozone and Microban® Filters to create the Premium Water Management System delivering the safest cleanest water for your spa.

The Premium Water Management Systems Eco Filtration pump turns over the water in a medium sized spa an average of 45 times per hour, providing you with crystal clear water that is filtered 4 times more than the industry standard.

Using the latest 'Advanced Plasma Gap Technology' Ozone Generators, the Premium Water Management System Ozone delivers the most natural, safe and highly efficient sanitisation system, that reduces the amount of chemicals required to sanitise your spa, saves on water, whilst still providing the safest cleanest water for your spa and killing up to 99% of micro organisms' typically found in spas.

The Microban® Filters used in all Signature Spas are impregnated with antimicrobial protection. Water combined with an ample food source can cause microbes to quickly multiply and grow on an unprotected surface. Microban® Technology provides an added level of cleanliness protection by working continuously between cleanings to fight the growth of bacteria that can adversely affect the performance of your spa filters.

We have done all the work, so you can relax in sparkling clean water!

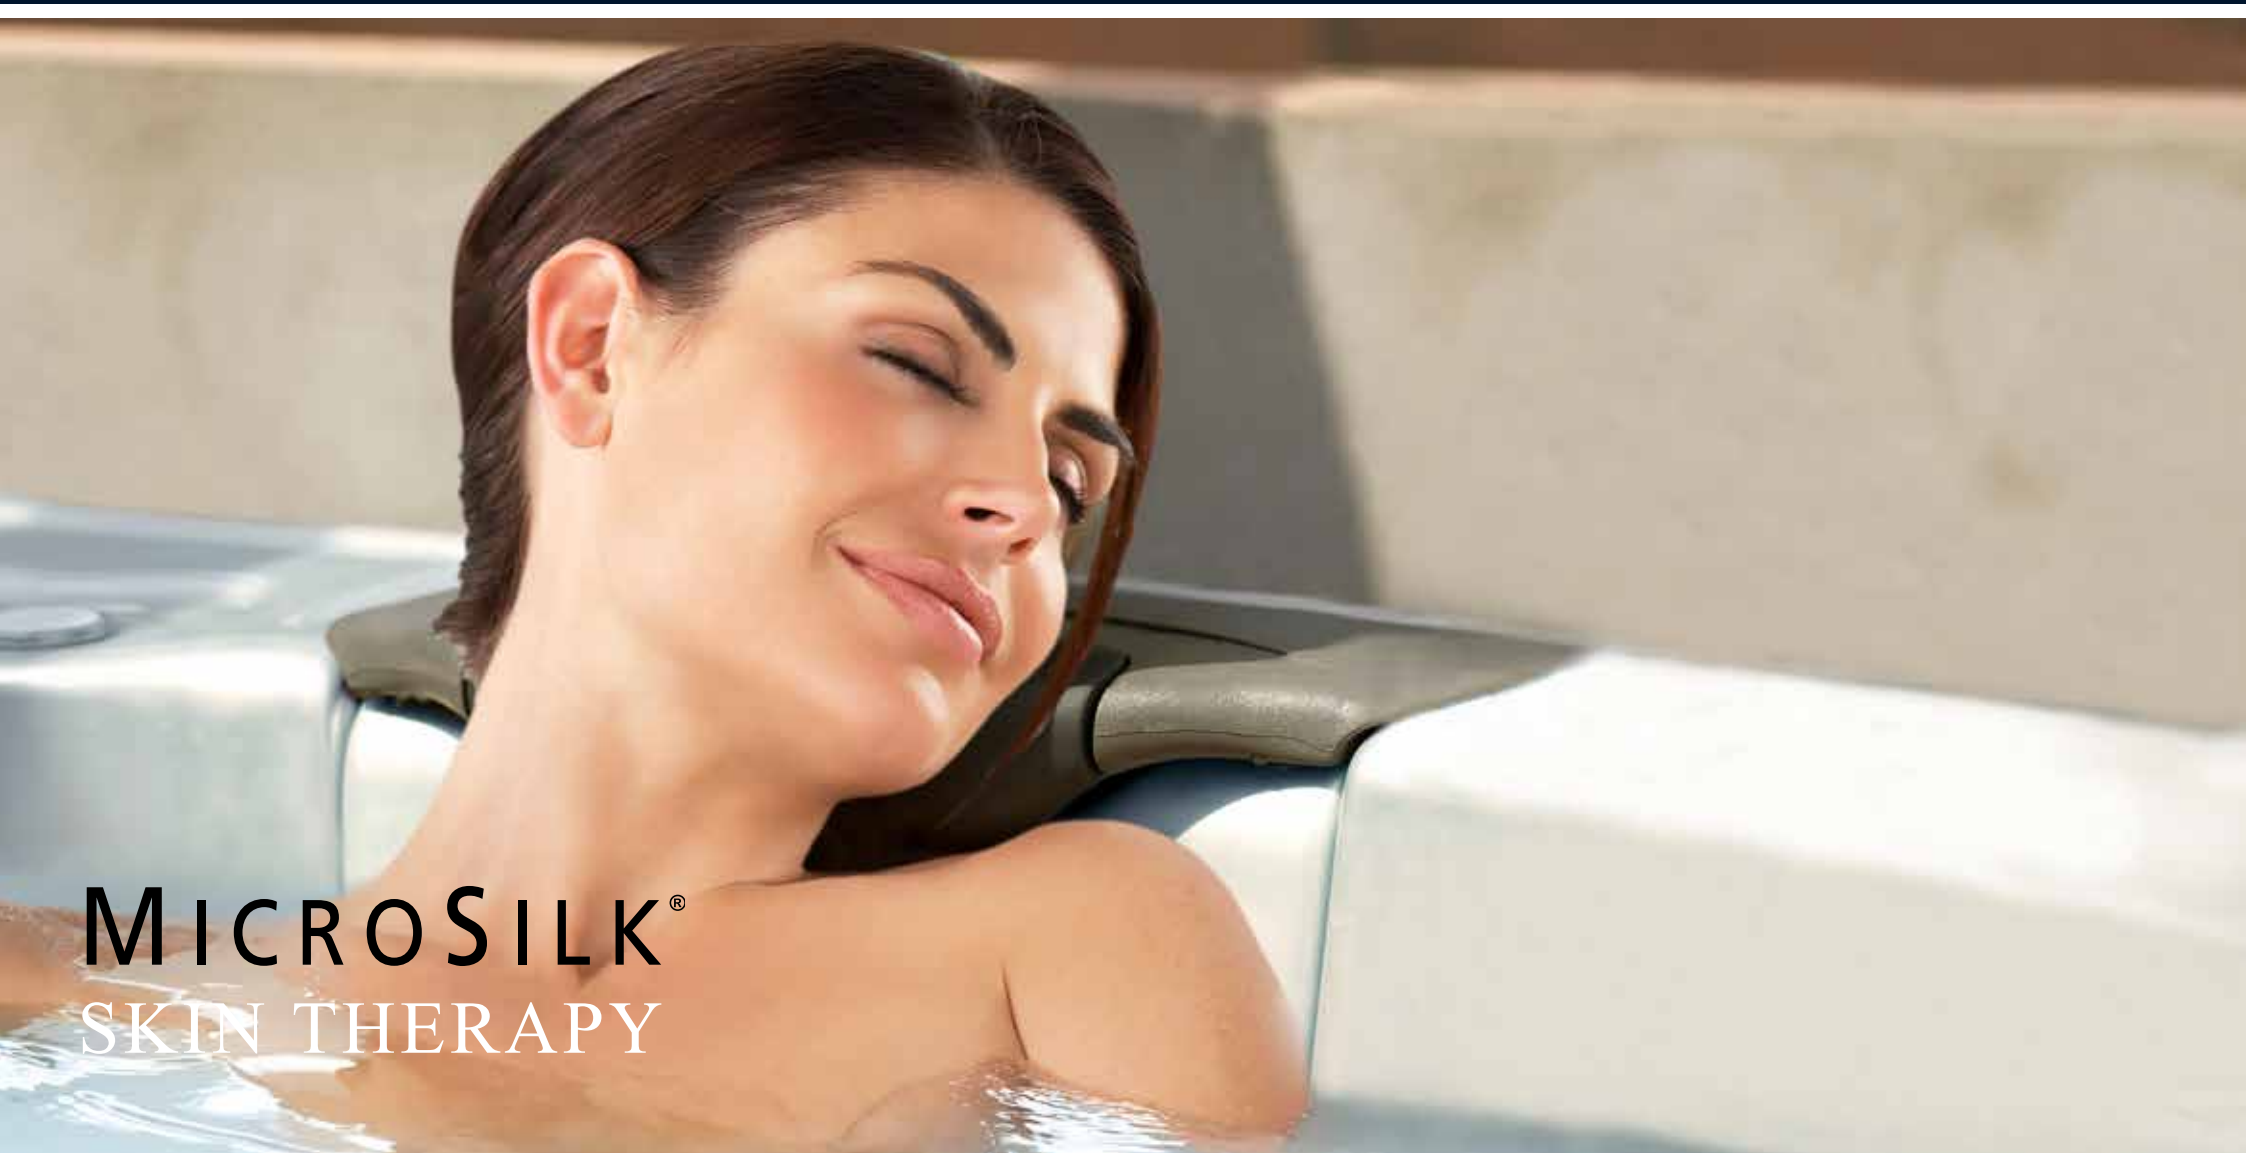

Easy Care **MAINTENANCE**

With our Easy Care Maintenance System, your spa can be kept in optimal condition in as little as five minutes per week, leaving you more time to relax and enjoy your weekend.

Water testing has never been easier, simply dip your test strip into the water, log-on to your computer or smart device, enter the results into our online testing centre and your treatment instructions will be calculated and displayed. Simply follow the instructions on the screen and your spa will always be sparkling clean.

Easy Access Filters reduce the amount of time spent cleaning your spa filters.

Eco friendly EternaWood™ Maintenance-Free Spa Cabinets, mean years of maintenance free service for years to come with no staining required.

MICROSILK[®]
SKIN THERAPY

Skin Therapy MICROSILK

Renew Your Appearance, Revitalise Your Body, Re-energise Your Life

A MicroSilk® spa is unlike any spa you've experienced before now. It's not just water, but billions of oxygen-rich microbubbles that reach where mere water and soap can't. The negatively charged bubbles enter your pores, bond to impurities, and gently lift them away, leaving your skin fresh and clean in a way you've never experienced.

Using a MicroSilk® spa is like giving your entire body a trendy oxygen facial, moisturising and hydrating at the same time making your skin feel luxuriously silky as well as reducing fine lines and wrinkles and smoothing the appearance of cellulite. MicroTherapy Bubbles literally envelope your body in a soothing, effervescent cloud of oxygen. Yes, oxygen is good for your skin. Increased oxygen levels result in better circulation and cellular respiration, which in turn leaves the skin glowing and radiant due to rapid skin cell regeneration.

Until now, this treatment was only available in expensive Day Spas or Beauty Salons making it cost restrictive, but with the introduction of our patented MicroSilk® system, you can now enjoy this treatment in the comfort of your own home.

Revitalise your skin in just 20 minutes... You will feel the difference!

MicroSilk Bubble

Typical Air Bubble

Unlike typical air bubbles, MicroSilk microbubbles are small enough to penetrate the skin's pores and remove impurities.

iTouch®

Enhanced Spa Experience **INTUITIVE NAVIGATION**

The most reliable, advanced technology control system available in outdoor spas

Innovative Engineering and state-of-the-art manufacturing go hand in hand to deliver a quality intuitive Touch Screen Control System for spas.

Almost all new electronic devices today have touch screen interfaces. Our phone, car, microwave, home appliances and now your spa, with the iTouch® Spa Controller.

iTouch® makes the operation of your spa that much easier. The sleek new topside panel includes a large easy to use back-lit LCD touch screen with simple to follow user menus. With new “Press and Hold” button technology, setting temperature and other common tasks have been simplified. User navigation is intuitive and easier than ever.

Premium ENTERTAINMENT & CONTROL

Integrated Spa Stereo System

Listen to your favourite music whilst relaxing in the spa, with the Bluetooth Wireless Stereo System. This fully integrated spa system has been designed specifically for the spa environment and comes complete with built-in speakers, a sub-woofer and built-in Bluetooth interface to enable you to control the audio system through the iTouch® control panel.

iSpa® Wi-Fi Spa Control App

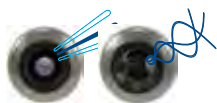

Control your spa from anywhere in the world!

Operating your spa remotely reaches a whole new level, with the iSpa®/Wi-Fi Module. Simply attach the Wi-Fi module to your spa control system and download the iSpa® App to your smart device. Operating your spa then becomes a simple finger swipe operation. Heading home and feeling like a spa? Use your iSpa® App to check the temperature, turn the lights on for ambience, or turn on the jets and water features – What a wonderful welcome home!

Maybe you are enjoying your holiday away, and can't remember if you set your spa in Rest mode. Easy, just call up the iSpa® App and check the settings on your spa from anywhere in the world, and adjust as necessary. Now you can relax and enjoy your time away.

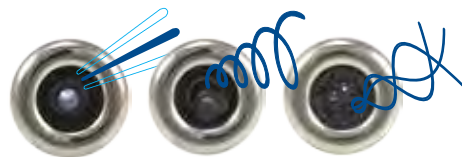

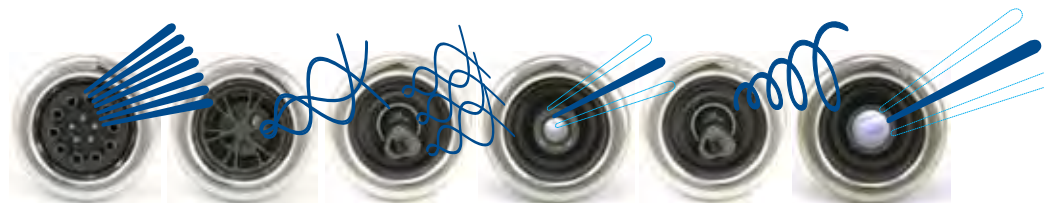

Micro Hurricane Jets

The Micro Hurricane Jets are designed for a strong massage effect with a small jet face. (These jets are not able to be turned off).

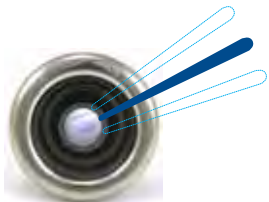

Mini Hurricane Jets

The Mini Hurricane Jets are interchangeable with each other. Move them around to suit your massage type. Simply turn jet clockwise/anti-clockwise to turn water flow on/off through the jet. To remove the jet face, turn counter clockwise until the face clicks out.

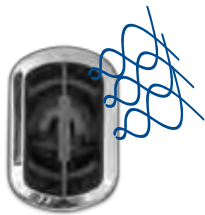

Large Hurricane Jets

The Large Hurricane Jets are interchangeable with each other. Move them around to suit your massage type. Simply turn jet clockwise/counter clockwise to turn water flow on/off through the jet. To remove jet face, turn counter clockwise until the face clicks out.

Super Jets

The Super Jet is a high flow jet allowing a large amount of water to pass through. This creates a turbulent action in the spa (These jets are not able to be turned off).

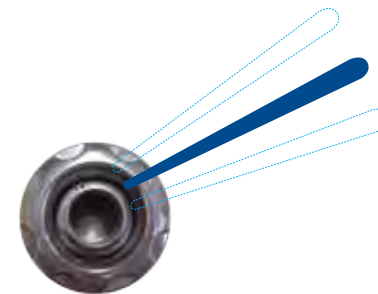

Verta'ssage Jets

The Verta'ssage Jet is a slow rotating jet designed for the ultimate massage (These jets are not able to be turned off).

Master Massage Jets

Extra large construction combined 15 micro nozzles together, the Master Massage Jet is specially designed to massage a large area (These jets are not able to be turned off).

Swim Spa Jets

The Swim Spa Jets are high flow jets with fixed direction of nozzle used to create a strong turbulence to allow the swimmer to swim against (These jets are not able to be turned off).

Generation IV

Miami[®]

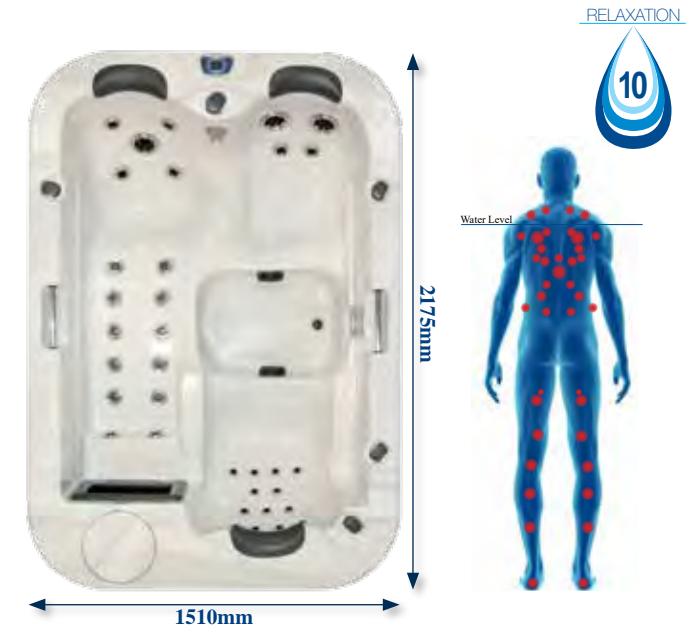

Series II

The Miami has been designed to cater for the current trend in inner city apartment living and small block lifestyles, as well as an intimate couples spa. With a full hydrotherapy lounge and two deep therapy seats, this compact portable spa delivers amazing versatility.

Innovative **SWIM SPAS**

Designed with easy maintenance, all year round use to suit today's lifestyle and backyards, Swim Spas are now the number one choice for Australian backyards. Combining exercise and relaxation benefits of a swimming pool and spa combined. A Swim Spa allows you to swim in place against a current, combined with the benefits of a spa for relaxation.

Swim Spas come in a range of sizes, from 4.3m x 2.3m through to 5.8m x 2.3m, and can be installed as an above ground portable unit or as an in-ground unit to complement your landscape design. At the swim end, a multi jet unit delivers all the power required to satisfy the strongest swimmer, yet with simple 'finger tip' adjustment of the controls the smallest children or beginner swimmers are also catered for.

The Spa end of the Swim Spa is designed to give you the comfort, relaxation and hydrotherapy massage you would expect from a top end Spa, with various seating configurations and fully adjustable hydrotherapy jets.

Swim Spas use less water than a pool, are easy to maintain and can be used all year round, providing a complete exercise and relaxation centre in your own backyard.

Platinum

V-Stream

The Platinum V-Stream Swim Spa is enhanced with features to cater for the whole family. The best of hydrotherapy and relaxation options, and the longest swim length available in a 6 seater spa. With 3 models to choose from, there is sure to be one that suits your needs.

At the spa end, there are 2 x Deep Therapy seats and 2 x Upright seats to give you the comfort, relaxation and hydrotherapy massage you would expect from only a top-end spa. An additional 2 x Upright seats are located in the swim end.

At the swim end, the “V” formation jetting provides a fully adjustable swimming current to satisfy the strongest swimmer, yet with a simple fingertip adjustment of the controls, small children or beginner swimmers are also catered for.

The Platinum V-Stream comes with individual air controls for each seat and is fitted with hi-end features such as the iTouch® Touch Screen Control Panel, Underwater LED Mood Lighting, (Series III models are also fitted with Premium Perimeter Lighting), Premium Water Management System, Ozone Sanitisation, Laminar Jets, Grab Rail, Timber Free Construction and Maintenance Free EternaWood Cabinet.

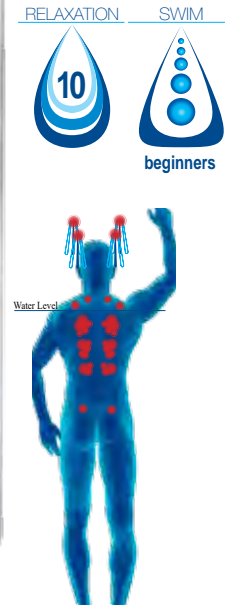

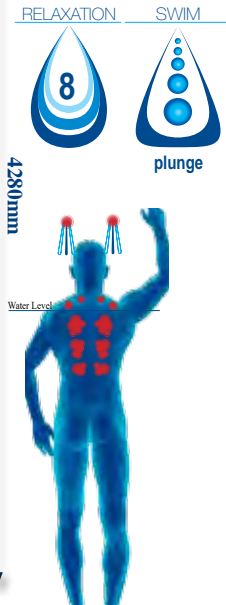

For the complete exercise and entertainment package, add the Wif-Fi Global and Bluetooth Wireless Stereo System options.

Colour SELECTION

Customise Your Signature Spa with Your Choice of Colours

Signature Spas allow you to choose from a full range of beautiful colour choices to suit your landscape, home, and personal tastes. Choose the spa shell acrylic colour, cabinet colour and hard cover colour you like and make your Signature Spa the perfect expression of your style.

Colour preferences are part design sense and part instinct. An acrylic colour will inspire you. A cabinet colour will compliment your surroundings, plant life, structures and existing colour combinations.

Spa Acrylic Colours

Signature Spas are built using only superior quality Acrylic.

1. Sterling Marble

2. Pearl Shadow

3. Ocean Wave

4. Summer Sapphire*

5. Sierra

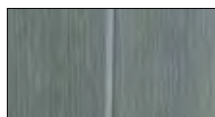

6. Glacier

Cabinet Colours

100% Maintenance Free weather and UV Resistant cabinets will not fade or split and no staining is required. Available in 3 colours: Coastal Grey, Moroccan Brown or Teak.

Western Red Cedar is the natural alternative and is one of the world's most durable timbers, with a natural resistance to moisture, decay and insect damage. Specially treated with an anti-fungal stain, with easy maintenance it will stay looking good for years to come. *Not available on Swim Spas.

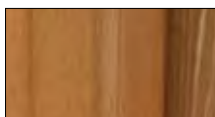

Coastal Grey

Moroccan Brown

Teak

Western Red Cedar*

Note: Weights and capacities are approximate. Specifications are subject to change without notice. Colour and cabinet availability varies by model. Please see specifications.

There's more to enjoy with your **SIGNATURE SPA**

Signature Spas have always been on the cutting edge of technology exploring new and innovative ideas for making your spa experience memorable. Whether for relaxation, hydrotherapy, entertaining friends or rehabilitation, there is a Signature Spa to suit everyone's needs.

When you choose a Signature Spa, you have peace of mind knowing that your after sale warranty and service needs are covered by a team of professional spa technicians.

Choices to meet your individual needs

Fitted with state-of-the-art components found in all Signature Spas and enhanced with premium features, the Signature Spas Series stands out from the rest.

iTouch® Touch Screen Spa Control Panel, makes control of your spa as easy as all your other electronic devices.

Wi-Fi Global Module allows you to control your spa remotely anywhere, anytime directly from your smart devices. Control the temperature, pumps, lights, blower and filter cycles with a simple touch.

Laminar Water Jets create stunning visual effects as the arcs of clear water silently enter the spa.

Premium Perimeter Lighting just below the water line, allows your spa to sparkle with a rich spectrum of inviting colours, creating a spectacular light show, adding ambience and style to your spa.

100% Titanium Heater elements and tubes are used in all Signature Spas. Titanium is the most corrosive resistant material available for spa heaters, as its non-magnetic properties will not attract particles that can harbour and corrode. Titanium also has a low thermal expansion rate which greatly reduces structural fatigue and fractures.

Premium Water Management System combines Eco Filtration, Advanced Plasma Gap Technology Ozone and Microban Filters, to provide you with crystal clear water that is filtered 4 times more than the industry standard.

Smart Step is designed to complement the Eternawood Cabinet, these safe and strong steps make getting in and out of your spa much safer and complete your spa experience.

Signature Spas - An exclusive Spa Retreat in your own backyard!

Peace of Mind **AUSTRALIAN MADE**

Peace of Mind is choosing a spa designed and built by a company that has been in the Spa Manufacturing industry for over 23 years and is the largest spa manufacturer in Australasia, a company with over 100,000 spas being enjoyed by families all over Australia, New Zealand and Europe.

Signature Spas have been specifically designed and built to withstand the Australian climate, using only the highest quality components sourced from the US, Canada, New Zealand and Australia that save on energy, reduce maintenance and extend the life of your spa.

All Signature Spas are fully tested on completion, using computerised diagnostic testing equipment to ensure the reliability of each and every spa, and come with a 25 Year Structural Warranty backed by Australian Service.

Signature Spas offer a range of spas suitable for everyone, whether it's for pure indulgence, family time, party time, Hydrotherapy or simply relaxation, there is a spa for every occasion.

With the backing of a company who use cutting edge technology to design spas with ergonomically contoured seating and loungers that offer the utmost in comfort, and are fitted with the most energy efficient 7 Star Rated Filtration System in the industry, you can relax and enjoy the spa experience.

Signature Spas are manufactured in Australia by Spa Industries Global Pty Ltd
